glorious skin – firming, lifting, tightening, anti-ageing emotions, thoughts, concerns, the capacity to act and communicate, are linked to countless muscular contractions, which day after day leave deeper and deeper expression signs, particularly around the mouth, eye and neck areas. Glorious Skin

[comfort zone] research laboratories present glorious skin, an exceptional formulation for immediate visible lifting effects, as well as long term anti ageing properties.

Lifting hexapeptide – this new generation peptide is your 'botox like' ingredient that will safely and effectively relax the muscular contractions similar to botox, to soften those expression lines.

Cyclodextrines – this starch complex forms an invisible 'bra' for the skin that offers hydration with an immediate lifting and tightening effect.

Collaxyl – this is a unique collagen peptide to effectively work on those lines that result from the normal ageing process. This will boost our collagen production, favour cellular regeneration and will restores the epidermal-dermal junction.

Visible results...immediate results...lifting efficacy... powerful anti-ageing = glorious skin

Two highly specialised retail products that clients can TAKE HOME
